EARLY CHILDHOOD MUSIC CLASSES

MUSIC AND MOVEMENT CLASSES

Hoff-Barthelson Music School's programs for young children are grounded in Dalcroze Eurhythmics—a method of teaching that pairs music and movement to catalyze the development of children's minds and bodies. Even the very youngest children develop focus, spatial awareness, gross motor skills, social skills, and the ability to work with others—all while having fun!

Research has long demonstrated the value of movement-based learning. Noted Swiss musician and educator Émile Jaques-Dalcroze (1865-1950) understood that the use of movement facilitates musical understanding and encourages musicality. His methods form the foundation of high-quality early childhood music education programs world-wide.

Home to both a thriving early childhood music program and a Teacher Training and Certification program endorsed by the Institut Jaques-Dalcroze, Hoff-Barthelson is one of the foremost centers of early childhood music education in the United States.

Hoff-Barthelson offers weekly classes based in Dalcroze Eurhythmics for preschoolers. Exercises and games in class involve singing, moving and improvising, and using small percussion instruments to promote keen inner hearing and rhythmic sensitivity. Attractive, colorful materials, including balls, hoops, and colorful scarves inspire a variety of activities and appeal to the imagination.

Our young students are guided and encouraged by their teachers to develop many skills involved in music-making. In parent-child classes, a joyful bond grows between the children and their adult caregivers as they sing together, listen, and move with the music. Beginning at age 3, Hoff-Barthelson offers a variety of classes for children who enjoy attending music class independently.

One 40 minute class per week - \$475

Saturday, 11:00 am

Through this introduction to the world of choral singing, children learn basic vocal techniques, develop their music-reading, listening and performance skills while exploring diverse repertoire that introduces them to cultures from around the world. Musical and vocal games keep classes lively and fun as the group prepares to perform in recitals and festivals throughout the year.

Listening and Learning in Action (For Fives and Kindergarten)

One 40 minute class per week - \$475

Monday, 3:45 pm

Thursday, 3:30 pm

Saturday, 9:30 am

Because kindergartners, who happily learn rhythm through movement, are also fascinated by visual symbols, this class prominently features *Chalk Talk*. Children clap and play rhythms on percussion instruments while the teacher notates them on the board. Aural skills are developed through singing accompanied by hand movements that show the motion and contours of the melody. Recommended for children who are taking instrumental lessons, or are preparing to do so.

Getting to Know You: Exploring the Instruments (For Fours, Fives and Kindergarten)

One 40 minute class per week - \$475

Tuesday, 2:45 pm

Saturday, 8:45 am

Much in demand, Getting to Know You brings professional musicians into the classroom to introduce children to instruments in the wind, string, and percussion families through sight, sound and stories. Children also explore Dalcroze Eurhythmics to develop their musical skills. Highly recommended as preparation for private instruction.

Music exerts a profound impact in the lives of young children — they naturally tune in, listening wide-eyed and moving to the beat.
